# LSΔcademia
CCE Result on a Click

Background

'LSAcademia-CCE' is comprehensive academic performance evaluation software, fully compliant to latest CCE guidelines from CBSE. It is a part of an advanced ERP software solution 'LSAcademia' developed for managing academic institutions and incorporates latest Java Web technology. LIBSYS has been developing software products for academic institutes for over 25 years with clientele ranging from schools, colleges to IITs and IIMs. The LibSys ILMS has been recognized as de-facto standard for library management.

'LSAcademia-CCE' offers a one stop, hassle free solution to manage the school result. The software is available as a service on the Web and is easy to use.
